

## Solving *Your* (school, church, non-profit) Budget Crisis

# Finding Funding in Tough Times

**“These are times that try men's souls”**

*The Crisis*, Thomas Payne,

For non-profit organizations today, these words of Thomas Payne sure capture how we feel. For many institutions traditional sources of funding have shrunk, or have just plain vanished. Many traditional patrons have lost a fortune, some 40% of their wealth or more. How can they continue their traditional support?

In this workshop you will learn *new* ways to find funding. Some of these sources and approaches you may have heard before, but have never tried. But in this current economic crisis one must seriously consider *all* alternatives to get the funding to keep one's mission alive. It only takes a single nugget of an idea to make this investment of your time worthwhile.

- Increase donations to your organization without increasing the burden on your patrons
- Plan for success: Learn the highly successful Grant Planning System used to raise millions
- Leave with a plan for *your* success
- Learn to leverage what other organizations know about funding that non-profits typically don't

**Speakers:** Keith Center, President Mason International Business Group, will give an easy to understand, step by step way to find funding. He raised \$16,200,000 for one client, including match, and \$300,000 for several others. His method may also help you. Keith is also a member of the National Speakers Association, Ohio chapter.

Ted Leithart, President, The Leithart Group, is a genius of joint ventures. Ted brings a brilliant new way where everyone wins, you and your non-profit, and also past patrons that may now also be hurting in this recession.
